# Reference Manual

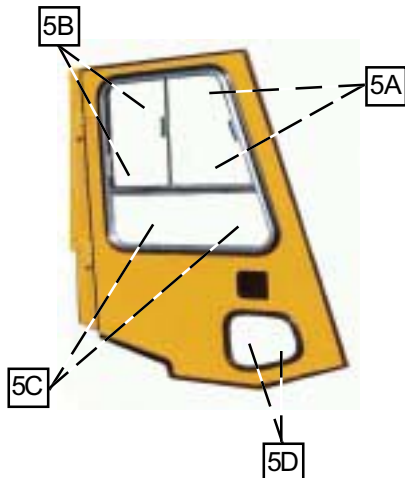

## WINDOW MATERIAL

Various transparent materials are available for the windows in a Martin Cab.

For cabs and replacement parts produced subsequent to February 1, 2001, the preferred material for all clear windows, except the front windshield, will be 3/16" thick "Modified Acrylic". Implementation will affect **clear laminated glass** product only. Other windows may include Modified Acrylic, Lexan or laminated glass materials.

Specific cab model update effectivity will be at the discretion of Martin Cab.

For parts ordering purposes, the suffix "MA" will be appended to the clear laminated glass number to indicate "Modified Acrylic". An example of the modified numbers is shown below:

<b>5A</b>	Side Window-3 Piece, Front:	
	* Clear Laminated .....	501F-1
	* Clear Modified Acrylic .....	501F-1-MA
	Tinted Laminated .....	501F-1T
<b>5B</b>	Side Window-3 Piece, Rear:	
	* Clear Laminated .....	501R-1
	* Clear Modified Acrylic .....	501R-1-MA
	Tinted Laminated .....	501R-1T
<b>5C</b>	Side Window-3 Piece, Stationary:	
	* Clear Laminated .....	501S-1
	* Clear Modified Acrylic .....	501S-1-MA
	Tinted Laminated .....	501S-1T
<b>5D</b>	Lower Side Windows:	
	* Clear Laminated .....	501B
	* Clear Modified Acrylic .....	501B-MA
	Tinted Laminated .....	501B-T
	Standard Clear Lexan .....	501B-01

\* Clear Laminated Glass Number  
\*\* Modified Acrylic Number
